Lopinavir/ Ritonavir Solution has received wide acclaim because you are the second company in the world to have manufactured and exported this product to Bangladesh on our special request. We understand that the relevant molecules of this drugs are very complicated and difficult to stabilize. This medicine has proved to be a drug of choice for new born and infants.

We have been assured of continued procurement of your Antiretroviral Drugs and other medicines in the near future. We expect to do a very big sizable business with your esteemed company in the years to come.

Thanking you and best regards,

Faiz Ahmed
CEO
